PROJECTS

TATU — Education system, Admin dashboard ~ *I used it on the front end of the site*

Link: https://test-project-pi-nine.vercel.app/

We created this site with a team. We did this through VueJs. I have participated in the Staff, Students, Groups, Tests and Results section of the site. To enter the site: { login: davlat, password: Davlat!1 }

Online Market — *I used it on the front end of the site*

Link: https://my-online-market.netlify.app/

I did it through NuxtJs because it works well and fast for SEO. A responsive version of the site has also been made. The site is written in JavaScript. The site has no backend

Pomodoro — Time management ~ *I used it on the front end of the site*

Link: https://pomodoro-app-my.netlify.app/

I did it through VueJs. A responsive version of the site has also been made. The site is written in JavaScript
